# The Bali Rental Income Guide

What a villa really earns after every cost. The numbers the brochures leave out.

By Kai, Bali property adviser · balioffscript.com

THE FIRST THING TO KNOW

# The brochure number is gross.

| | |
|---|---|
| **8–15%** | The yield on most brochures. A year of bookings divided by the price, before any cost. |
| **4–6%** | What an average villa really keeps, net, after every cost and tax. |
| **7–9%** | Net on a villa that was well bought and is well run. That's a good result. |

Bali can be a great buy. Just buy on the net number, never the brochure.

ONE VILLA, REAL NUMBERS

# A $300,000 villa, worked out.

$150 a night, 65% occupancy, a 25-year lease.

| | |
|---|---|
| Bookings for the year | **$35,588** |
| Running costs, 45% of gross | **– $16,014** |
| Income tax, 10% | **– $3,559** |
| **What reaches you** | **$16,015 · 5.3%** |
| The lease running down ($300k ÷ 25) | **– $12,000** |
| **Your real economic return** | **$4,015 · 1.3%** |

The lease is the hidden cost. A guaranteed extension in the contract changes this whole picture.

WHAT GUESTS PAY

# Nightly rates and occupancy

| BEDROOMS | BASE RATE A NIGHT |
|---|---|
| One | **$80–110** |
| Two | **$130–180** |
| Three | **$180–260** |
| Four | **$250–350** |
| Five | **$300–450** |

| VILLA | OCCUPANCY |
|---|---|
| Well run, strong area, 1–3 bed | **70–80%** |
| Larger villas | **60–70%** |
| Average villa or location | **50–60%** |

Peak season runs 40 to 70% above the base rate.

WHERE THE MONEY GOES

# Running costs take 40–50% of gross.

| | |
|---|---|
| Management | **15–25%** |
| Platform commission | **~15.5%** |
| Accommodation tax (PB1) | **10%** |
| Maintenance | **10–15%** |
| Reserve for pool, roof, aircon | **10–15%** |
| Pool, before repairs | **$100–200/mo** |
| Land and building tax (PBB) | **0.1–0.5%** |

Staff, utilities and insurance come on top. Aircon and a pool pump cost more power than most models assume.

WHAT EARNS MORE

# Five things that move your rate

1. **Walkability**
   Guests who can walk to breakfast, beach and dinner pay more and book more.

2. **A real view**
   Ocean, rice field or valley. The biggest single multiplier.

3. **Pool and outdoor space**
   Not bedroom count. A great pool beats an extra bedroom.

4. **Photography**
   Often a bigger difference than the area. And the cheapest fix.

5. **Management**
   Good management grosses 15 to 25% more on the same villa.

# Licence and tax, in short

1. **A licence to list**
   Since 31 March 2026, booking platforms need a verified business number with the right classification.

2. **10% accommodation tax**
   Charged on stays. The platforms don't collect it for you.

3. **Income tax on rent**
   10% final for a resident individual, 20% for a non-resident.

4. **2.5% when you sell**
   A final tax on the transfer value.

Your home country may tax your worldwide income too. Check before you buy, not after.

WHAT I DO FOR YOU

# You don't have to do this alone.

I'll run your numbers with honest occupancy, check the licence position and find a villa or land that can actually earn.

1. **I find the land**
   In the area and budget that fit your plan, with the zoning checked first.
2. **I find the right property or project**
   Built, off-plan or land to build on. I look at all of them, so you see the honest options.
3. **I check everything before you pay**
   Certificate, zoning, permits, the lease clauses and the seller.
4. **I stay with you to the notary**
   Questions answered straight, in plain words, until the keys are yours.

**WhatsApp me: +44 7441 340188**

Tell me the area, your budget and your timing, and I'll tell you what I would check first. This guide is general information, not legal or tax advice. Rules change: verify with your own notary before you sign.
